

Expense Report Overview

The Expense Report form must be completed to report expenses incurred before and during a business trip. All related receipts connected to Vassar credit card charges and to (reimbursable) out-of-pocket expenses must be included when the report is submitted.

Due Dates

- To comply with Vassar policy, expenses incurred during your trip must be submitted in a report either within 14 days of the completion of the trip, or 14 days of the close of the credit card billing period, whichever comes first.
- IRS regulations require that expenses for employment-related travel be reported to the employer within 60 days of when they are incurred. This means that you may have to submit an initial expense report before you travel, if you incur charges more than 60 days before your departure (such as airfare, conference fee, etc.).

Any expenses reported more than 60 days after they are incurred are deemed taxable income by the IRS, and will be shown as such on your W-2 tax form.
